

North Oaks Medical Center is seeking a board-certified/eligible Trauma Surgeon, with additional training in surgical critical care to join the Shock Trauma Program in Hammond, Louisiana. Become an integral part in the development of a building a world-class Level II trauma system by joining a dynamic team of professionals dedicated to the highest level of quality care.

North Oaks Shock Trauma Program is looking for highly-motivated Trauma Surgeons for its state of the art modern and expanding facility. As one of the busiest ER in the state of Louisiana, North Oaks Medical Center is committed to seeking Level II State designation and ACS verification within the near future. With over 1,000 trauma patient contacts presenting to our Emergency Department within six months, the program projects an estimated volume of 1500 cases annually with 90% of those being blunt traumatic injuries. The trauma surgeons will collaboratively assist with the development and progress of becoming a level II trauma system. The opportunity to participate in residency education and research will be available as the organization is actively developing an academic GME program within the institution.

The ideal candidate will be a team builder dedicated to exceptional clinical care and patient experience. Responsibilities will include trauma call coverage, continuity clinic, SICU rounding, trauma floor rounding, emergency department trauma coverage, active participation in monthly peer review and quality improvement. This is an employed position offering a competitive salary plan based on experience, comprehensive benefits package, including relocation, malpractice insurance coverage. Dr. Duchesne will be attending the EAST 27<sup>th</sup> Annual Scientific Assembly in Naples, FL January 14<sup>th</sup> through 18<sup>th</sup> and will be available to provide more information on the above listed position.
