

Program Director, General Surgery Residency

Monmouth Medical Center, an affiliate of Barnabas Health in New Jersey, is seeking a Program Director of General Surgery Residency Training Program.

Located in Long Branch, NJ, the General Surgery Residency at Monmouth Medical Center is fully accredited by the ACGME. The program graduates 4 chief residents (20 categorical/6 preliminary). The program is integrated with Newark Beth Israel Medical Center, and offers rotations at Jersey Shore University Medical Center's Regional Trauma Center and Memorial Sloan-Kettering Cancer Center.

Applicants for Program Director must be Board-Certified with leadership experience in GME (i.e. Associate or Assistant Program Director) as well as strong scholarly experience publishing and presenting. Experience with and development of Simulation Lab integration is ideal.

As part of the largest integrated health care system in NJ, the position offers competitive compensation and robust benefits package including health, life, disability and malpractice insurance, 401k/retirement, plus PTO and added time off for CME.

Located along the Jersey shore, this thriving area is full of beautiful suburban neighborhoods with access to top-notch schools, plus bursts with plenty of places to see and things to do including restaurants, theaters and other amenities. What's more the hospital is just over an hour from New York City, Philadelphia, and Atlantic City.

For additional information, please contact Annelise Catanzaro, Manager of Physician Development at Barnabas Health via email docjobs@barnabashealth.org or phone (973) 322-4364. Thank you!
